Hacktober 2021 Swags:

This year it's supported by Appwrite

Swag List:
- **One contribution:** OG Appwrite sticker pack
- **Two Contributions:** OG Appwrite sticker pack + Limited Edition Hacktoberfest sticker pack
- **Three Contributions:** OG Appwrite sticker pack + Limited Edition Hacktoberfest sticker pack + Mug
- **Four Contributions or more:** Limited Edition Appwrite Hacktoberfest T-shirt + Hacktoberfest Sticker pack + OG Appwrite Sticker Pack + Mug
- **Rather than receive t-shirts as swag, you can choose to have a tree planted in your name and help make Hacktoberfest 2021 more carbon neutral**

Individual Company Swags are also given if their requirements are fulfilled

Stastics:

2018:
- 46,088 participants completed the Hacktoberfest challenge
- 44% increase over 2017 participation levels, even though this year's event required five pull requests instead of the previous four
- Hacktoberfest showed its global reach—participants hailed from 143 countries (based on their shipping address). Additionally, 267 community-organized Hacktoberfest events (a 124% increase over 2017) were held in 50 different countries.
- Because PRs don't have to be labeled in any way, it's difficult to tell what kinds of contributions were made; however, of the 7,442 pull requests labeled "Hacktoberfest," approximately 27% were JavaScript, 17% were Python, and 16% were HTML. And 90% of those PRs were closed.

2019: Not found by me,Plz forgive

2020:
- 70k participants completed the Hacktoberfest challenge increase

from previous years.

2021: Estimates are of around 70k.However, Let's see
